

Dear ICM Customer:

We have enclosed our new priority order forms to expedite processing of your orders. This is an extension of the Mark Sensing system, and provides the same fast service to our customers. For those not familiar with the marking system, a marked order sample is shown below.

So that your orders can be processed through the priority system, items should be ordered by catalog number and the order information filled in the designated spaces. The order can then enter a computer input terminal at ICM and go directly into processing.

Remember when ordering crystals, to write your required frequencies in Hertz (HZ).

- 10 MHZ is 10,000 KHZ
also 10,000,000 HZ
- MEGA Million, add 6 zeros
- KILO Thousand, add 3 zeros

INTERNATIONAL CRYSTAL MFG.		PRIORITY ORDER FORM		Customer Name <i>JOHN A. DOE</i>				
10 North Lee, Oklahoma City, OK 73102				File Number <i>A 0 0 0 0 D O E J</i>

Note:

ICM maintains ordering service for all types of written or phone orders to assist customers in determining the correct units for all crystal requirements. The priority order form is an alternate ordering system for customers not requiring this assistance.
